North America is where area and population diverge in their rankings because this continent's population is not growing as fast as Asia's. North America is third in area at 9.4 million square miles (24.5 million square kilometers). However, it's fifth on the list in population with 369 million people.

W; Continents;

Continents Continent

Definition "Continent"

derives from the Latin

terra continēns [terra

= "land", continēns =

present participle of

the verb contineō =

con ("together") +

teneō ("I hold").The

meaning is therefore

"land held together" or

"connected land."

Originally the term

"continent" was

applied to any area of

land, of any size, not
